## NK cells (natural killer cells)

Macrophage/monocyte lineage (likely M2–like macrophages)

T cells (CD8+ T cells)

Tregs (CD4+ Foxp3+T cells) Th17-like T cells (CD4+ T helper 17)

Monocytes/Macrophages

Activated T cells (CD4+ or CD8+)

Macrophages/Monocytes

T cells (CD4+ T cells) >

IgA+ plasma cells/secretory B cells.

Macrophage/monocyte-like cells.

Dendritic cells (DC

B cells (specifically germinal center B cells)

Dendritic cells (DCs) or a subset thereof, possibly plasmacytoid DCs (pDCs).

Macrophage-like cells or Monocytes

Macrophage/Monocyte
